

Description

This **HHA264-N** Aeroponics indoor grow system is a double tray with four (4) 6 inch net pots that are great for growing tall and big tomatoes, big vegetables and all applications where natural light or existing light is used. All products are flexible as it allows you to change the insert for any size plant and change the lighting to suit all of your growing needs.

Designed for medium and large sized plants like tomatoes.

Custom hanging frames available. Every system can easily be configured.

Patent Pending
