

Description

This **HHAS64-D3192R** Aeroponics system is great for growing big plants such as seeded fruit plants and tomatoes. It includes a single tray with four (4) 6 inch net pots and a 960 watt 120 volt Reflector LED light. This Reflector grow light is switchable between grow and bloom. Included is UV (and IR) lighting for trichomb production.

Designed for medium to large sized plants like tomatoes, and big vegetables.

Custom hanging frames available. Every system can easily be configured.

Paten Pending
